SLCGA and SGU members of course rating team of 6 started the process of rerating all Somerset course two years ago. During 2015, Salford, Clevedon, Bath, Weston super Mare, and Mendip Spring 9 hole course were all completed.

Evaluations are carried out for:

- Obstacle factors on each hole
- Topography of a hole
- Fairways for degree of difficulty of hitting the green
- Greens for degree of difficulty of hitting the green
- Recoverability and rough on possibility of missing the landing zones
- Bunkers and their proximity to target areas
- Out of bounds and extreme rough
- Water hazards
- Trees and their size and density
- Green surface: speed and contouring with the use of a stimp meter

An analysis of all these points produces a numeric result for each hole on the course. This information is then fed into EG's computer and the Standard Scratch is found for each hole on the course.

In 2016, Brean has already been rated and by the end of July, it is anticipated that The Mendip, Mendip Spring and Tall Pines will be rated with plans to complete another 3-4 courses by the end of September. The work, however, is weather dependent.
